DETAILED ACTION

Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert W. Bergstrom, Reg. No. 39,906, on October 26, 2007.

The application has been amended as follows:

Claim 21, line 1: Replace "that" with --on a computer readable medium that when executed--.

The following is an examiner's statement of reasons for allowance: The prior art, including that of Nakhimovsky, in light of Applicant's definition of immediate memory as related to read and write operations, found in Applicant's Specification, fails to teach the combination including the limitation of:

(Claim 1) "...setting one or more bit flags within the translation to indicate that the translation specifies an immediate virtual memory page";

(Claim 13) "...processor logic for reading one or more control bits within a translation and determining whether or not a corresponding unit of memory is immediate";

(Claim 21) "...setting an immediate flag within the translation to indicate that the corresponding virtual memory page is immediate, with no allocated physical memory";

Claims 2-12, 14-20, and 22-31 are allowed as being dependent upon, and thus incorporating therein, the allowable subject matter of the respective parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
